MATH GRADE 6

A. Short Answer (SA) 2 points
Mean:

Standard: V.C

Strand: Data Analysis and Probability
Content Standard: Students will understand how to formulate questions, analyze data, and determine probabilities.
Benchmark: Develop and evaluate inferences and predictions that are based on data.

Enrique, Colin, and Jacob are the only swimmers in the 50-meter freestyle race at a swim meet. After the race, they will each be awarded a ribbon for 1st, 2nd, or 3rd place.

In your answer document, list all the possible combinations in which these three boys could finish in 1st, 2nd, or 3rd place. Use words, numbers, or pictures to explain your answer.

B. Rubric

C. Student Responses
