The table below shows the number of movies the Belen family watched from January to July.

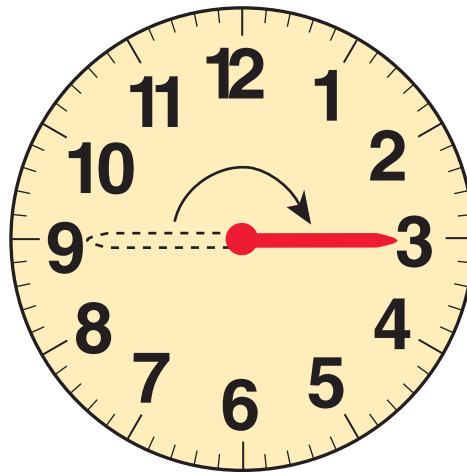

Month	Number of Movies
January	12
February	8
March	14
April	8
May	6
June	5
July	3

- A. On the grid provided in your answer document, make and correctly label a bar graph, using the data from the table above.
- B. According to the table or bar graph, predict about how many movies the Belen family will watch in August. In your answer document, use words, numbers, or pictures to explain your answer.
