THE NEW MEXICO STATE DEPARTMENT OF EDUCATION

Vision Statement

The New Mexico State Department of Education believes the education of all students must become the mission of all New Mexicans. We believe education must challenge all students to reach their potential.

Alan D. Morgan, Ed.D.
State Superintendent of Public Instruction
The purpose of this document is to establish the New Mexico State Department of Education’s (SDE) procedures to be followed by school districts when calculating the Training and Experience Index. Questions concerning these procedures should be addressed to:

The School Budget Planning Unit  
State Department of Education  
300 Don Gaspar  
Santa Fe, New Mexico 87503  
(505) 827-3860
22-8-24. Instructional staff training and experience index; definitions; factors; calculations.

A. For the purpose of calculating the instructional staff training and experience index, the following definitions and limitations shall apply:

(1) "instructional staff" means the personnel assigned to the instructional program of the school district, excluding principals, substitute teachers, instructional aides, secretaries and clerks;

(2) the number of instructional staff to be counted in calculating the instructional staff training and experience index is the actual number of full-time equivalent instructional staff on the October payroll;

(3) the number of years of experience to be used in calculating the instructional staff training and experience index is that number of years of experience allowed for salary increment purposes on the salary schedule of the school district; and

(4) the academic degree and additional credit hours to be used in calculating the instructional staff training and experience index is the degree and additional semester credit hours allowed for salary increment purposes on the salary schedule of the school district.

B. The factors for each classification of academic training by years of experience are provided in the following table:

<table>
<thead>
<tr>
<th>Academic Classification</th>
<th>0-2</th>
<th>3-5</th>
<th>6-8</th>
<th>9-15</th>
<th>Over 15</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor’s degree or less</td>
<td>.75</td>
<td>.90</td>
<td>1.00</td>
<td>1.05</td>
<td>1.05</td>
</tr>
<tr>
<td>Bachelor’s degree plus 15 credit hours</td>
<td>.80</td>
<td>.95</td>
<td>1.00</td>
<td>1.10</td>
<td>1.15</td>
</tr>
<tr>
<td>Master’s degree or bachelor’s degree plus 45 credit hours</td>
<td>.85</td>
<td>1.00</td>
<td>1.05</td>
<td>1.15</td>
<td>1.20</td>
</tr>
<tr>
<td>Master’s degree plus 15 credit hours</td>
<td>.90</td>
<td>1.05</td>
<td>1.15</td>
<td>1.30</td>
<td>1.35</td>
</tr>
<tr>
<td>Post-master’s degree or master’s degree plus 45 credit hours</td>
<td>1.00</td>
<td>1.15</td>
<td>1.30</td>
<td>1.40</td>
<td>1.50</td>
</tr>
</tbody>
</table>
C. The instructional staff training and experience index for each school district shall be calculated in accordance with instructions issued by the state superintendent. The following calculations shall be computed:

1. multiply the number of full-time equivalent instructional staff in each academic classification by the numerical factor in the appropriate “years of experience” column provided in the table in Subsection B of this section;

2. add the products calculated in Paragraph (1) of this subsection; and

3. divide the total obtained in Paragraph (2) of this subsection by the total number of full-time equivalent instructional staff.

D. In the event that the result of the calculation of the training and experience index is 1.0 or less, the district’s factor shall be no less than 1.0.

E. In the event that a new school district is created, the training and experience index for that district is 1.12.
I. Annual Reporting

School district personnel shall annually calculate and report the Training and Experience Index (T & E) to the office of the School Budget Planning Unit. The calculations shall be based on the FTE (full-time equivalent) number of operational personnel in each designated object code from the selected October payroll.

II. Placement Requirements:

School district personnel shall list the FTE number of operational personnel in each designated line item from the October payroll using established FTE definitions.

<table>
<thead>
<tr>

<td>______________________________</td>
</tr>
</tbody>
</table>

Instructional personnel are to be placed in the appropriate training and experience classification on the matrix based on the following:

A. Include only operational personnel as defined in 22-8-24 (A.1) NMSA 1978. Do not count for training and experience reporting purposes administrators or those personnel excluded under 22-8-24 (A.1) NMSA 1978. Contract days and contract hours funded from sources other than the State Equalization Guarantee shall not be included in calculation of the T & E. (However, instructional personnel paid from PL 874 Indian Set-Aside funds shall be included in the calculation.)
B. Using the local board/SDE approved district salary schedule and the October payroll, enter FTE personnel.

C. For T & E reporting purposes, place employees within the state’s matrix even if the district’s salary matrix does not coincide with the state’s.

D. Include licensed, non-degreed personnel under the BA or Less category if paid from the district’s salary schedule.

E. For individuals who have a half year of experience, school district personnel may choose to round the years of experience up to the next year, provided the district recognizes the full year of experience for salary purposes.

III. FTE Requirements

School district personnel should report FTE as 1.0 for full-time individuals in the position and in hundredths for part-time employees. A 1.0 FTE is determined by the length of contract and hours per day of the majority of personnel in a given personnel category paid from the district salary schedule as adopted by the local board of education. (For a discussion of contract hours and funding sources, see section II-A on page 5.) To derive FTE for part-time employees, divide the amount of employed time by the amount of time normally required in a full-time assignment. The computation of FTE should be the same whether it is computed on time or on salary. The following examples illustrate various situations and the manner in which FTE is calculated:

Example 1

In many districts licensed personnel have duties and assignments in various areas (i.e., teacher-principal, teacher-guidance, or teacher-librarian). A person may have an assignment as a principal for 2 hours of a 6 hour contract day and may teach 4 hours.

The teacher-principal is paid $27,500, has a Master’s degree, and has 10 years of teaching experience. According to the district’s adopted salary schedule, the teaching position would pay $22,900. The FTE should be computed as follows:

\[
\begin{align*}
4/6 \text{ of time} &= 67\% \text{ Teacher} \\
2/6 \text{ of time} &= 33\% \text{ Principal}
\end{align*}
\]

Total Contract: $27,500

Less: $15,343

$12,157

Example 2

A teacher’s, librarian’s, or counselor’s regular contract is for 182 days at 7 hours per day. If the same employee is hired for a period of time in excess of the regular contract (1 additional hour per day)*, report the person as 1.14 FTE. To arrive at the percentage which is over the

*Increments for coaching or club activities, etc., are not to be included.

New Mexico State Department of Education, October 1996
regular contract day, begin with the number of hours in the contract day as 100% and then figure the additional time as a percentage of the regular contract day. (For a definition of FTE, see the introductory paragraph of section III on page 4.)

<table>
<thead>
<tr>
<th>Description</th>
<th>Calculation</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regular contract day</td>
<td>7 hours</td>
<td>100%</td>
</tr>
<tr>
<td>1 additional hour</td>
<td>1/7 day or</td>
<td>+14%</td>
</tr>
<tr>
<td>Total percentage</td>
<td></td>
<td>114%</td>
</tr>
</tbody>
</table>

If the same individual's regular contract is for 182 days, but the person is on an extended contract of 190 days, report the person as 1.04. To arrive at the percentage which is over the regular contract, begin with the contract (182 days) as 100% and then figure the additional days as a percentage of the regular contract.

<table>

<td>+ 4%</td>
</tr>
<tr>
<td>Total percentage</td>
<td></td>
<td>104%</td>
</tr>
</tbody>
</table>

Example 3

In calculating FTE, only one person per position is to be included. For example, if a person resigns and is immediately replaced, count only the replacement.

IV. Experience Requirements

A. School district personnel must enter FTE’s on the state’s training and experience matrix in accordance with the experience recognized and paid for on the school district’s adopted salary schedule. Total years of experience attained by the individual may not be applicable if the school district’s salary schedule recognizes only a portion of the experience for salary purposes.

B. Reported experience must be related to instruction and must be in accordance with local board policy and verified by use of a verification form, a W-2 form, or an in-district contract and evaluation form.

1. If permitted by local board policy, verified employment for trades and industries instructors may be counted as experience for training and experience purposes in their licensed or instructional area.

2. If permitted by local board policy, verified employment for support service personnel may be counted as experience for training and experience purposes in their licensed or instructional area. [Support personnel are coordinators/subject matter specialists (obj. code 2.1211), library/media specialists (obj. code 2.1212), guidance counselors (obj. code 2.1214), registered nurses (obj. code 2.1215), diagnosticians (obj. code 2.1311), speech therapists (obj. code 2.1312), occupational therapists (obj. code 2.1313), physical therapists (obj. code 2.1314), psychologists (obj. code 2.1315), audiologists (obj. code 2.1316), interpreters (obj. code 2.1317), orientation and mobility specialists (obj. code 2.1318), and social workers (obj. code x.xxxx).]

3. Military service should shall be counted only when verified as instructionally related.
C. “Related to instruction,” as referenced in the State Department’s Manual of Procedures for the Calculation of the Training and Experience Index, should be defined as those experiences as a professional educator (including administrative and supervisory experience) and as licensed or certified professionals in a clinical or parallel setting.

D. School district superintendents must notify the State Superintendent by October 1 of the prior year if additional out-of-district years of experience will be recognized for salary purposes.

V. Training Requirements

A. Training reported must be that which is in accordance with local board policy and verified by official transcripts of an accredited university, college, or postsecondary institution.

B. Hours added to a university, college, or postsecondary institution’s transcript for academic achievements such as attaining certain grades or for any other outstanding achievements are not to be reported for T & E purposes.

C. For T & E purposes, additional hours of credit are to be counted only after each academic degree is awarded and in accordance with local board policies. Further, additional hours added after the completion of one degree do not carry over after the completion of another degree.

For T & E purposes, education must be approved by local board policy and fall within the following guidelines:

1. Undergraduate and graduate credit hours earned before the bachelor’s degree is completed may not be counted. (Granting institutions may choose to count these graduate hours as part of a graduate degree.)

2. If permitted by local board policy, all credit hours, either undergraduate or graduate, may be counted if earned after the bachelor’s degree.

VI. Forms for Reporting T & E and Instructor Folder Information

A. The School Budget Planning Unit will make available the forms for calculating and reporting T & E.

B. Appendix A contains a sample packet which should assist school district personnel to organize an instructor’s file.

VII. Expiration of Waivers

All grandfathered policies under Department administrative guidelines for the calculation of the Training and Experience Index shall expire as of December 1, 1995. Therefore, the Training and Experience Index calculated in October 1996 for use in determining program cost for the 1997-98 school year—as well as all subsequent training and experience indices—must be calculated without the use of training and experience waivers. Personnel must be placed on the training and experience matrix in accordance with this manual.
Additional SDE Requirements for Calculation of the Training and Experience Index

1. **LICENSURE:** For T & E purposes, either a teacher must be licensed or have applied for a license, or the district must have received or applied for a waiver for that individual prior to calculation of the district’s T & E Index in October; if these conditions are not met, the individual may not be included by the district in the calculation of the district’s T & E Index for that year.

2. **COMPLETED VS. CONFERRED DEGREE:** For T & E purposes a degree which has been completed but not yet conferred may be counted only if the degree granting institution verifies in writing that the degree requirements have been completed and that the degree will be conferred at a later date.

3. **COUNTING TWO M.A.s AS M.A. PLUS 45:** If an individual has two master’s degrees, the second degree may not be counted as forty-five additional hours unless it actually comprises forty-five hours. In other words, only the actual number of hours constituting the second degree may be counted as hours in addition to the first master’s degree.

4. **ADDITIONAL HOURS EARNED AS PART OF A DEGREE:** Hours earned by an individual while working toward a degree that are in excess of the actual number of hours needed for that degree may not be counted for T & E purposes as additional (“plus”) hours once the degree has been completed. For example, although any hours earned while an individual is working toward a master’s degree may be counted as they are accumulated as hours additional to the bachelor’s degree, once the individual has earned the master’s degree, none of those hours earned beyond actual degree requirements may be counted as hours in addition to the master’s degree—the master’s degree becomes the new starting point.

5. **OFFICIAL TRANSCRIPT:** An official transcript is required as proof of the conferment of a degree or of the accumulation of additional hours beyond a degree. An official transcript is one issued by an accredited institution and embossed with an institutional seal or other means of official identification.

6. **RELATIONSHIP OF THE APPROVED DISTRICT SALARY SCHEDULE TO THE TRAINING AND EXPERIENCE MATRIX IN STATUTE:** Section 22-8-24 NMSA 1978 does not require that a district salary schedule correspond exactly to the statutory Training and Experience matrix. Districts are free to deviate from the matrix so long as they are not in violation of other statutory confines, such as the requirement to maintain a minimum teacher salary. However, districts should be aware of the following:

   a) Although a district’s salary schedule may compensate experience through groupings of years that differ from those specified by the Training and Experience matrix, it must reflect by means of an actual salary increase the divisions on the Training and Experience matrix in order for an individual to be placed in the higher cell for purposes of calculating the district’s Training and Experience Index. For example, if the district’s salary schedule
indicates that there is no salary increase granted for movement from a bachelor’s degree and five year’s experience to a bachelor’s degree and six years experience, any individual with a bachelor’s degree and six year’s experience must be placed back in the same cell as those with a bachelor’s degree and five year’s experience for purposes of calculating the district’s Training and Experience Index.

b) A district may choose to recognize for salary purposes additional training categories, such as a master’s degree plus thirty hours. Although the individual holding a master’s degree plus thirty hours may make a higher salary than the individual holding a master’s degree plus fifteen hours, that individual must be placed in the master’s plus fifteen hours category for purposes of calculating the district’s Training and Experience index.

c) When a district freezes its salary schedule, the district may not use the additional years of experience and/or training it does not recognize for salary increments for the purposes of calculating the district’s Training and Experience Index. This provision also applies to school districts engaged in collective bargaining (1) that have not entered into an agreement by the time the Training and Experience index must be computed, (2) that are using the prior year’s salary schedule, and (3) that have not allowed individuals to advance in terms of experience or training.

d) If local board policy permits, experience of less than one school year but more than half of a school year may be rounded to one year so long as the experience was gained in one position in one span of time, i.e., a series of unconnected experiences may not be combined. A district that so rounds such experience must recognize the full year for salary increment purposes if it uses the full year for T & E purposes.

7. VERIFICATION OF INSTRUCTIONALLY-RELATED MILITARY EXPERIENCE: Upon discharge from military service, individuals are provided with paperwork that includes a description of the duties to which they were assigned. If this official paperwork is insufficient to allow district personnel and state auditors to determine whether or not the duties were instructionally related, further proof will be required of the employee before credit for such experience may be given. The responsibility for securing additional acceptable verification is the employee’s. Such additional verification may consist of official documents issued by the military or of written confirmation that includes a description of the instructionally-related duties performed and the signature of the employee’s former commanding officer or authorized designee.

8. INSTRUCTIONALLY-RELATED EXPERIENCE: To qualify as instructionally-related, experience must either be in a position in which the primary job responsibility is the supervision and/or provision of formal instruction or in a position as a licensed or certified professional in a clinical or parallel setting. The first type of instructionally-related experience includes but is not limited to experience as a classroom teacher in a public or private school or postsecondary institution; experience as a superintendent, director of instruction, director of testing, director of special education, or principal in a public or private school; experience as a president, dean, or department head in a postsecondary institution; experience as a formal trainer in government, business, or industry; and experience in a verifiable instructional capacity in the military. The second type of instructionally-related experience includes but is not limited to experience as a registered nurse in a school, hospital, doctor’s office, or clinical setting; and experience as an occupational or physical therapist (or any other ancillary service provider) in a school, hospital, doctor’s office, or clinical setting. The above lists are illustrative not exhaustive.
APPENDIX

Instructional Staff Folder Information

I. Purpose

II. File Organization

A. Table of Contents

B. Cover Sheet Information—Verifiable Training
   1. School of graduation
   2. Date degree conferred
   3. Type of degree
   4. Training hours earned and schools attended

C. Cover Sheet Information—Verifiable Experience
   1. Places of employment
   2. Dates of employment (starting date to ending date)
   3. Number of hours/days worked during the year

D. Instructor Licensure Records

E. Administrative Training Records

F. Health Records

G. Evaluation Records

H. Miscellaneous Information

I. Personal and Confidential Records

III. File Folder Organization
I. Purpose

The intent of this packet is to inform and show one way in which your school district can organize your personnel files. The information that follows should help you accomplish two objectives:

A. Organize the school district’s filing and record keeping management system, and

B. Streamline the review process so that outside sources such as the SDE Accreditation Unit, the Internal Audit Unit, the school district’s private auditor, and the instructors themselves can gather needed information that is reliable, complete, and easily accessible.

II. Personnel File Organization

A. Table of Contents

Each folder should include a table of contents page that lists the exact contents of the information on file. Such a page would help in the review process when only certain documents are required.

B. Cover Sheet Information—Verifiable Training

This cover sheet should include information pertaining to:
1. The school(s) from which the individual graduated,
2. The date(s) of degree conferment,
3. The type(s) of degree(s) earned, and
4. The training hours earned and schools attended as applicable to the district’s policies established for purposes of movement on the salary schedule.

The information should be listed in chronological sequence. This will help in tracking the information. (See example A on page 14.)

The transcripts received should be official and bear the embossed university seal.

C. Cover Sheet Information—Verifiable Experience

This cover sheet should include information pertaining to:
1. Places of employment,
2. Dates of employment (starting date to ending date), and
3. Number of hours/days worked for each year of employment.

The information should be verifiable and signed by the previous employer. A school district verification form will have to be developed by the school district for this purpose. (See example B on page 15.)

Only experience applicable to the policies of the school district and allowable on the salary schedule will be shown here and listed in chronological sequence. All other experience will be placed in the miscellaneous section of the folder.

Just behind the cover sheet will be the actual verifiable documents pertaining to the cover sheet information. This documentation will be in the same chronological sequence for ease of comparison and verification.
D. Instructor Licensure Records

This section of the folder should include all licensure documents which pertain to the qualifications of the instructor, including the subjects and grade levels the instructor is eligible to teach. In addition, if the instructor is under a waiver agreement, that agreement must be filed within this section.

E. Administrative Training Records

This section of the folder should include all pertinent administrative training records.

F. Health Records

This section of the folder should include all pertinent health records and health information as required by the school district and must also include the results of the TB test.

G. Evaluation Records

This section of the folder should include those evaluations which are required on an annual basis by 22-10-6 (B) NMSA 1978, 22-10-21 NMSA 1978, and Part II (D) of the Standards for Excellence.

H. Miscellaneous Information

This section of the folder could include any other important information which does not fit the other topics above.

I. Personal and Confidential Records

This section will include information at which outside personnel will not need to look.

Note: It is important not to have duplicate information. This will only disorganize the filing system. All duplicated documents should be given to the instructor for his/her own personal files.
